

NS-CU05a-Coast Pilot Text Correction Worksheet – Field Definitions.

Prepare the [NS-CU05-Coast Pilot Text Correction Worksheet](#) on the computer for professional results. The chart updater should enter their text corrections using a computer and attach a copy to a NS-CU03-Chart Updating Form. Also, indicate your evidence and justification for the correction on the Chart Updating Form. These are the explanations of the fields used to report Coast Pilot text corrections to NOAA.

Heading Data	
Field Title	User Information
Coast Pilot Number	Enter the number of the Coast Pilot being updated.
Edition	Enter the Edition of the Coast Pilot being changed.
Worksheet Number	When multiple worksheets are used, enter a worksheet number.
District	013 has been assigned for First Northern use.
